Dear Pastor,

February 2014

Several years ago a young girl attended our church and youth group and made a profession of faith. I later had the privilege of baptizing her and she seemed to be doing well spiritually. As she grew older, however, she was influenced by friends to try other churches and even avoid church completely. We prayed.

Our prayers were answered. About five months ago she showed up for church one Sunday and hasn't missed since. She's even influenced a few others to be a bit more faithful.

It made me realize once again that the Lord is faithful. He never leaves us nor forsakes us.

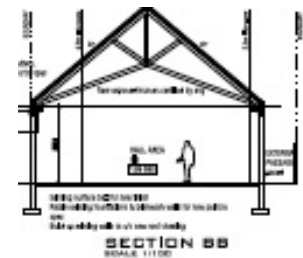

Building News

Much has happened since my last letter and it is all good!

I never thought I would enjoy a "building project" but in this case I'm very pleased to get back into the planning stages.

So far we have short listed two contractors and isolated one of those as the most likely candidate. It has involved many discussions and much studying of contracts. We're very close to signing. So close we've begun clearing the property, getting ready for material deliveries and such.

Our actual restart date is projected for early March. Please pray for our building.
